

ISO BOX

High-Quality Isothermal Solutions

Made in Italy since 1978

About Us

Isobox S.r.l. is a leading company with over 45 years of experience in the isothermal solutions sector. The company is based in Cesena (Italy) with a production facility with more than 5.000 sqm and over 35 employees.

Founded with the aim of providing high-quality, Isobox stands out for its innovation and attention to our customer's specific needs.

From the construction of refrigerated boxes for trucks to small isothermal boxes for vans for small distribution, Isobox vans are highly customizable to meet customer requirements and can be fitted with any type of equipment.

Our Values

Isobox is based on 5 main values:

Integrity

Honesty and transparency in all operations.

Innovation

Constant search for new technologies and solutions.

Sustainability

Respect for the environment and eco-friendly practices.

Quality

Commitment to excellence in every product.

Customers

Centrality of the customer and their needs.

Our Vision

Our vision is to become the global reference point for isothermal solutions, recognized for the excellence of our products, the sustainability of our practices, and the value we bring to our customers and partners. We design each panel from scratch for each project, and the production process is entirely managed by us to ensure a top-quality product. The mission of Isobox S.r.l. is to offer a product that meets our customers' needs while contributing to environmental protection. We aim to continuously improve our products through research and innovation.

Products and Solutions

We offer a wide range of isothermal solutions, including:

Isotherm boxes < 3.5T

Isothermal panel kits

Isotherm boxes > 3.5T

Boxes for horse transport

Isotherm boxes Semi-trailer

Special projects

Environmental Sustainability

Sustainability is at the heart of our operations. We use eco-friendly production processes, constantly researching new solutions to reduce environmental impact. We promote the recycling and reuse of our products.

Quality and Certifications

Quality is a priority for Isobox, and we are certified for ATP FRC/RRC transport, ensuring an isothermal structure that can reach up to -20°C. We are aware that our vehicles carry important loads, and we feel a strong responsibility in terms of efficiency and safety of our finished product.

What can you expect from us?
